THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertigo dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion---Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. Settlements of accounts will be required monthly, or the supply of papers will be discontinued. The daily and weekly issues will be furnished at the lowest cash rates and no exception will in future be made to this rule.

A Mail Subsidy.

It is claimed that the swift and commodious Puget Sound mail steamer New World, which is now lying at one of our wharves, is furnished with every requisite for the comfort and convenience of the travelling public; that she can run upon an average sixteen knots an hour; and, therefore, without pressing the steamer to her highest point of speed, she can easily make two round trips each week between this port and the Sound. To the Oregon port of Portland there come weekly two ocean steamships from San Francisco. A mail subsidy has recently been granted by Congress, which will shortly be let to the lowest bidder, for the carriage of mails by these steamers from San Francisco to Portland. From Portland to the town of Monticello, on the Cowlitz river, steamers make regular trips three times each week with the Washington Territory and Puget Sound mails. From Monticello, during the greater part of the year, these mails are carried across the narrow peninsula lying between Columbia River and Puget Sound, by stage, a distance of ninety miles, to the town of Olympia, where the letters are sorted, and every Monday morning in future mail bags will be placed on board the New World and left at the Postoffices to which they are directed along the Sound. Now, we understand that, by the terms of agreement between the Imperial Government and the United States postal authorities, the latter have agreed to convey mail matter destined for British Columbia, in American steamers, to the terminus nearest the port of Victoria, of their ocean mail service. As the ocean mail service is just about to be extended to Portland, in accordance with this agreement we are entitled to have our mail bags laid down at the latter point, which is some 500 miles nearer Victoria than San Francisco; and, if the necessary arrangements can be made, may have them forwarded twice a week by the same conveyance that carries the American mail matter to Olympia, whence it can be taken on board the New World every Thursday and Monday morning, and landed at this port on the evenings of the same days. But, as economy is the order of the day, it would be wise not to contract a liability which there is no present prospect of discharging, and a weekly service from Olympia to Victoria would answer every requirement during the current year. It needs no figures to show that we should generally be in receipt of our English letters and papers several days in advance of the time now consumed in the service, and that we should receive them four times in two months, instead of three times, as now; that we should enjoy regular weekly communication with our American cousins to the south of us; and that we should increase and place upon a permanent and profitable footing our trade with the Sound, which as yet is only in its infancy, but which, if properly "nursed," bids fair to be one of great importance to the Colony. We are aware that it will be urged by some that if the mail subsidy be withdrawn from the Active, she will cease to visit us at all, and that few passengers will come here by the roundabout way of Portland and Olympia. This, however, is an erroneous view of the case. Wherever there is traffic, means of conveyance will be found. In truth, it is passengers and freight that bring steamers—not steamers that bring passengers and freight. In any event, all are agreed that the Ocean Mail Subsidy cannot be renewed, for the very good reason that the country is too poor to pay it. It is, therefore, incumbent upon our Government to make the best arrangement that lies in its power, and that arrangement we conceive to be the one we have pointed out. A weekly service may be had, we think, for a mere trifle, while a semi-weekly service will be a matter for consideration at a future time.

A Sailors' Home.

Several deplorable casualties have lately taken place at Esquimalt, through which men belonging to the ships stationed there have lost their lives while laboring under intoxication. Indeed, if we carefully analyze the circumstances attending the numerous cases of sudden and violent death throughout the Colony, we are afraid we would have the conclusion thrust upon us that intoxication is the proximate cause of nearly all. We wish, therefore, to make an appeal on behalf of the sailors, both of the Naval and Merchant service, and to represent the necessity of affording them some sort of Home to which they might resort when on shore. In nearly all our seaport and garrison towns, at home and abroad, Sailors' Homes and Soldiers' Institutes exist, the result of private philantrophy, occasionally supplemented by slight aid from the Government, where soldiers and sailors can resort while on leave, indulge in quiet amusement, such as chess, draughts, bagatelle, skittles, bowls, &c., while attached is a library, a reading room supplied with newspapers and periodicals, and a coffee room, where tea, coffee, lemonade, and other non-alcoholic refreshments are supplied at a reasonable rate. The advantages to the seaman of such resorts are very great, for while on shore on leave for a few hours he is enabled to rest and amuse himself in a rational and innocent manner; whereas, in places where no such institutions exist, seamen, cut off as they are from all home ties, are forced to frequent public houses where the vilest of liquor is served out to them, and to contract habits that contribute to the demoralization of the individual and the destruction of his health, and are in the highest degree detrimental to the welfare and discipline of the service. At Esquimalt, to say nothing of the merchant shipping, there are always several men-of-war stationed for the protection of the Colony, and it is not asking too much of the colonists in return to show some regard for the welfare and happiness of that large and important class of our fellow countrymen "whose business is in great waters," and who are so closely associated with our national prosperity and greatness. The traditional character of the British seamen for recklessness and extravagance has now become a thing of the past, and the seamen of the present day, when favorably situated, are a steady, well-behaved class of men, always ready to take advantage of any rational means of recreation, and would, we feel assured, hail with satisfaction a Home where they could smoke, "yarn" and partake of harmless refreshment without being exposed to the temptation of grogshops. The expense of starting such an institution would be trifling, and, to a great extent, under proper management, might be made self-supporting. The perils of a sailor's life, both afloat and ashore, have been well described by Shylock: "Ships are but boards and sailors are but men; and there be land rats and water rats, water thieves and land thieves." Let us at least endeavor to give some protection from "land sharks" to

"The mariners of England,
That guard our native seas."

Any endeavors in achieving this object would, we think, be gratefully appreciated, and would conduce both to the elevation of the character, improvement of the sanatory condition and multiplication of the comforts of the sailor.

The Educational Question.

MEMORANDUM OF COLONIAL SECRETARY W. A. YOUNG.

The following memorandum on the subject of Education accompanied the message of the Governor upon the same subject:

Memorandum for the information of the Governor upon the School Question in Vancouver Island.

1. The Common Schools now existing in Vancouver Island, have been established under the "Common School Act, 1865."

2. This Act empowers the Governor to appoint from time to time, no less than nine persons, who shall constitute a General Board of Education. It also empowers the Governor to appoint a Superintendent of Education at a maximum salary of $1,500, and to appoint School Teachers. The Superintendent of Education is to remain in office for one year, and must therefore be reappointed annually.

3. The Board of Education, with the approval of the Governor, can establish as many "School Districts" as they may deem expedient.

4. The Act is not clear as to how the Schools themselves are to be established, or from what source the cost of the Buildings is to be defrayed.

5. It provides, however, that "every Common School" shall be open to the children of persons of all Denominations. It is silent as to how the Teachers are to be remunerated, or as to what, or whether any, School Fees are to be paid by the children.

6. The Act has been practically worked in Vancouver Island by the creation of a Board of Education, the probationary appointment of a Superintendent of Education at a salary of $1,500 a year, the probationary appointment of Teachers at certain fixed Salaries, the hiring and fitting up of Buildings for School Houses, and by the admission of children free of all charge, in short by the entire cost of the Establishment, including, besides Salaries and Rent, Books, Fuel, Water, and other Contingencies, being defrayed out of the General Revenue of the Colony.

7. Whether the framers of the Act contemplated this arrangement I know not. (I was in England when it passed). The Act itself certainly does not require it.

8. The Governor consequently could only undertake the responsibility of the expenditure thus incurred by the means being provided under an annual vote of the Legislature.

9. The sum of $10,000 was voted in the Appropriation Act for 1865, under the head of "Education, District Schools," and this sum was devoted towards the outlay (before described in Paragraph 6) for that year.

10. To provide for a similar expenditure in 1866, the sum of (in round numbers) $15,000 was placed upon the Estimates, and on the faith of this sum being voted the School Establishments were continued during 1866, and the charges thereof defrayed up to the 31st August, 1866.

11. On the 31st August, 1866, the House of Assembly of Vancouver Island had, practically, ceased to exist. No Appropriation Act had been passed by the Legislature, and it was evident that none would be passed. The Governor therefore took instant measures to relieve himself of the responsibility of further unauthorized expenditure on account of Schools, by causing a letter (copy annexed) to be addressed to the Superintendent of Education, stating that there being no ways and means at his disposal for defraying the expenditure, he would not guarantee payment of Salaries, Rent, or other items beyond the 31st day of August, 1866.

12. The onus of providing for the maintenance of the Schools was thus thrown upon the Board of Education, and the Schools have been continued up to the present time under some arrangement made by the Board of Education, the precise nature of which, however, I do not know.

13. Mr Waddington was appointed on the 7th June, 1865, Superintendent of Education, on probation for six months. He was not confirmed at the expiration of the period, nor has any subsequent appointment been issued to him. The School Teachers were likewise appointed on probation, and their appointments have not been confirmed.

14. On the 31st July, 1866, the Board of Education recommended certain Teachers for confirmation in their appointments, and solicited the re-appointment of Mr Waddington as Superintendent of Education. By a reply dated 10th August, 1866, (hereunto annexed) the Board was informed that the Governor declined to confirm any appointments until it was clear that the ways and means would be forthcoming to meet the expense of Salaries.

WILLIAM A. G. YOUNG,
3rd February, 1867.

The Colonial Secretary to Mr. Waddington.
COPY.

Colonial Secretary's Office,
Vancouver Island, 10th August, 1866.

SIR,—I have received and laid before the Governor your letter of the 31st ultimo.

2. In reply thereto, I am to state that His Excellency will not lose sight of the recommendation therein made by the Board of Education, but as His Excellency has not yet received the Estimates for the current year, and is much embarrassed by the present financial position of the Colony he is precluded from confirming appointments to offices until it is clear that the ways and means are forthcoming to pay the recipients of such appointments.

I have, &c.,
(Signed) WILLIAM A. G. YOUNG.

The Colonial Secretary to Mr Waddington
COPY.

Colonial Secretary's Office,
31st April, 1866.

SIR.—Adverting to my letter of the 10th instant, wherein a doubt was conveyed to you, as to whether the way and means would be forthcoming to pay yourself and certain of the School Teachers, who had been recommended by the Board of Education for confirmation in their apointment, I am desired by the Governor now to notify you for your own information and also for the information of the Board of Education, and of the different School Trustees, that there does not appear any probability of the ways and means being at the disposal of the Governor to meet the Expenditure on account of Education; and that therefore His Excellency is compelled at once to state that he will not guarantee the payment of any further expenditure under that head, whether on account of Salaries, Rent, or other matters, beyond the 31st day of August, next.

2. His Excellency desires me to express the extreme regret which he feels in finding it incumbent upon him to make this communication, but the present unfortunate condition of public affairs must necessarily take precedence of his own feelings in the matter, and no alternative is left him, than so far as possible to avoid a greater inconvenience by giving the earliest notification consequent upon the circumstances in which he is placed.

I have, &c.,
(Signed) WILLIAM A. G. YOUNG.

Legislative Proceedings.

NEW WESTMINSTER, March 5, 8 P. M.—Council met at 2 p. m.

Messages received from the Governor refusing assent to Conciseness Bill, and assenting to Sheriffs', Indian Graves, and Intestate Ordinances, and recommending amendments to Interest and English Law Bills, which were agreed to in Committee of the Whole.

Walkem gave notice of a resolution respecting the introduction of an English Admiralty Practice.

DeCosmos' motion on Confederation was postponed.

Robson's motion for exemption of Colonial made flour from road tolls, passed with the addition of the words, "Manufactured from Colonial grain,"

Macdonald's motion respecting the retention of the Free School system of Vancouver Island and its application to the populous parts of the Colony, evoked a lengthy discussion.

Robson opposed it as sectional matter and wanted the whole subject dealt with, and a general national [?] system adopted; he was not in favor of an entire Free School system, but preferred parents contributing their quota as proposed by the Governor's Message.

The feeling seemed to be against the motion passing, and it was finally agreed, on motion of Trutch, that further discussion be deferred to Friday, when the whole subject of Education will be taken up.

Robson and Young moved to refer to a Select Committee; lost.

House went into committee with closed door on the Mail Service.

Snow is falling heavily.

CHICAGO, March 1st—The New York Convention adopted an amendment allowing citizens, without distinction of color, to vote for delegates to a State Constitutional Convention.

He is 17 years of age, and one of his numerous names is Patrick, given as a mark of Royal regard for the Irish people. He made his entry in public life in Dublin, and it is supposed he may do much in his executive capacity to neutralize the Irish tendency towards Fenianism.

THE GALE OF SUNDAY NIGHT.

THREE VESSELS ASHORE.

The schooner General Harney, Captain Roeder, arrived from Whidby Island yesterday morning with a full cargo of hay and small stock. The Harney had nearly reached this harbor on Sunday night when the gale from the east drove her across to the American shore. She experienced a very narrow escape from wreck, and one of her crew was seriously injured by having his foot caught in the flapping main-sheet and being dashed to the deck. The Harney reports three American square-riggers as having been driven ashore during the gale. The ship Mary Glover is on the rocky shore near Port Discovery, and has sustained serious injury. The bark Iconium is on Point-no-Point, but does not appear to have received much damage; and the bark George Washington was blown almost high and dry upon Dungeness Spit where she lay yesterday morning, with the vigilant and ever-ready revenue cutter Lincoln, Captain White, endeavoring to pull her off. These disasters must have occurred within a few minutes of each other, as the vessels passed up the Straits in company on Sunday, about 3 p.m. They were all in ballast, and bound from San Francisco for the mills to load with lumber.

THE FORT KEARNEY MASSACRE.—The following are the only particulars received of this dreadful affair. A private letter writer says, "On the 19th of December the Indians corralled the wood train long enough to draw the troops from the fort. They would allow the troops to approach within gunshot and then retreat. In this way our men were drawn into an ambuscade, some three miles from the fort. The whole command of 94 men were thus surrounded and killed. Not one escaped. They were stripped, scalped, and horribly mutilated. Some had powder poured into their ears and burnt. Some of their hearts were cut out; and some—but I spare you the painful recital. We estimate the number of Indians at from two to four thousand. We do not know how many Indians were killed, but many, I should think, from the pools of blood we found. Some of our men were armed with Spencer rifles, revolvers and sabers, and some only with muskets. Each man had thirty or forty rounds of ammunition. One citizen went out in the excitement armed with a Henry rifle and two revolvers. He was found half a mile from the rest of our men, with sixty-four arrows and one spear in his body. Near him were six dead ponies and fifteen or eighteen pools of blood. We have stopped the wood train, sent for reinforcements, and are putting the fort in condition to stand a siege. We have several pieces of artillery, and three hundred rounds of ammunition for each guns. These Indians are the Arapahoes and Sioux. Their chief, Red Cloud, has a good English education. He is the Indian who met the commissioners at Laramie with a pipe of peace in one hand and a quiver of arrows in the other, which meant, "peace on his own terms or not all."

AWFULLY SUDDEN DEATH.—The insatiable monster Death struck down Robert Turner, master of the schooner Hannah, yesterday afternoon, in an awfully sudden manner. Turner, about noon, arrived from Sooke with a load of cordwood, and shortly before 3 p. m., walked from the wharf to the Great Eastern groggery with a friend and took a glass of some kind of liquor. He directly returned to his schooner, and, while conversing in the cabin of the schooner, was suddenly seized with a fit, and in a few minutes died. Dr Davie was summoned but too late to arrest the vital spark. The cause of death will be enquired into to-day. Before crossing the street to take a drink the deceased was in good health, and Lyons of the Great Eastern, declares that the dead man drank only a glass of Hostetter's bitters at his bar. Turner was a native of England, aged 38 years; he came to this country in '62, as boatswain of the ship Rosedale.

THE NEW WORLD.—Crowds of people visited this magnificent steamer yesterday. As she lies at the Hudson Bay Company's wharf, she appears a colossus in size. Her appointments are very fine, and her accommodations first class. The New World will answer every requirement of the Sound for many years to come. The pleasant old custom of ringing a bell upon approaching or leaving port is kept up on this boat. The New World is 560 tons register, 160 horse power, and will carry 500 tons of freight and 500 passengers. At the ports on the Sound, the New World was received by the townspeople with the ringing of bells and the firing of cannon. She will sail for the Sound at 10 o'clock to-morrow morning.

THE REVIVAL MEETINGS continue at the Methodist Church; the attendance is large and much earnestness is manifested by the worshippers. A large number of conversions have been made, and others are coming up nightly.

THE WIRES worked well north and south yesterday, and a number of private messages were received and sent.

ROYAL INSURANCE CO.—We have received from Messrs Sproat & Co., the Victoria Agents, a copy of the report of the Royal Insurance Company for 1867, which contains beautifully illuminated illustrations of the various offices of the Company; a calendar and memoranda for the year; obituary notices of distinguished persons lately deceased; and a copy of the Canadian Tariff. Apart from the information that the book affords of the business and progress of the Company, it is invaluable as a reference and guide for business men.

To preserve your health, cleanse your blood when it becomes vitiated and foul. Many are the symptoms which sound the note of alarm. Fail not to heed them. Indigestion, Nausea, Lassitude, Headache, Wandering Pains, Bilious and Eruptive Affections, are so many signals to tell you of disease in the blood. Remove it, and they disappear. How? Take AYER'S COMPOUND EXTRACT OF SARSAPARILLA. It is effectual for its purpose: purifies the blood, expels disease and restores the deranged functions of the body to their healthy action.—Corydon (Ind.) Argus. *

ASH WEDNESDAY.—To-day being Ash Wednesday (the commencement of the Season of Lent), there will be service read at the Episcopal and Catholic Churches. At the Cathedral and St. John's, service will be held at 11 a. m., and in the former place of worship, again in the evening, at 7 p. m. Throughout the Lenten period, there will be conducted the usual religious exercises, in connection with the Church of England, and on Friday evening the Bishop of Columbia will lecture on the Lord's Supper, at the Boy's Collegiate School.

SEASONABLE.—In homage to the spring season the Elocution and Debating Class of the Mechanics Institute has gone into recess. We trust that the seeds of intellect will will germinate and blossom amongst its members during the summer, and bring forth a literary harvest on the re-union of the class in the fall.

A SHIP, which was at first supposed to be the Glaramara, from London, was seen off Race Rocks early yesterday morning. She proved, however, to be a lumber vessel beating out of the Straits.

THE ELIZA ANDERSON arrived from the Sound at an early hour yesterday morning with passengers and freight, particulars of which will be found elsewhere.

STEALING FOWLS.—An Indian is in custody upon a charge of stealing two well disposed hens from their roosts across James Bay.

THE bodies of the lost sailors at Esquimalt have not been recovered.

THE ENTERPRISE will leave for the river at 9 a. m., on Thursday.

A Match Game of Billiards.

MESSRS EDITORS:—The quiet town of Esquimalt was taken by surprise last evening, on account of a match game of billiards, that came off on Mr Howard's table, between Mr W. W. Baugh, of Victoria, and Mr Peter Calvert, of Esquimalt, for $25 a-side. The game caused considerable interest, as the parties were well-up to the mark. The excitement was great towards the last game, which stood 98 to 99. Calvert tried to pocket the white, but failed, and Baugh pocketed the light-red, winning by two points. C. W.

PERRY DAVIS'

VEGETABLE PAIN KILLER.

The Greatest Family Medicine of the Age

Taken internally, it cures sudden colds coughs, etc., weak stomach, general debility, nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painters' colic Asiatic cholera, diarrhœa, and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. It is a SURE REMEDY FOR AGUE AND CHILLS AND FEVER.

A New and Grand Epoch in Medicine.—Dr. MAGGEL is the founder of a new Medical system The quacks and charlatans, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so his wonderful and all healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrum of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box fail taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant—there is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and if the nervous system is feeble, it is invigorated. This best quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic and Diarrhea Pills** cure where all others fail. White for Burns scalds, Chilblains, Cuts, and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 1 Vine street, New York, and all Druggists, at 25 cents per box.

HOLLOWAY'S OINTMENT AND PILLS.—The disheartened by ill-health need not be inconsolable, till they have honestly given a fair trial to these trusty medicaments One grand fact to be noted is, that they are impotent to do mischief in any case, because both Ointment and Pills are composed of the finest balsams, which purify, regulate and strengthen the animal economy. Everyone may confidently recommend these remedies to their friends afflicted by bad health; they will free them from disease, and confer on them the greatest good man can desire. Both external and internal maladies have succumbed to the persevering use of Holloway's Ointment and Pills, when the duration of some, and the excruciating pains of others, have defied ordinary measures.

Medical.

Scrofula, or King's Evil.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE is a certain cure in Cholera, Dysentery, Diarrhœa Colics, &c.

Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases." From A. Montgomery, Esq., late Inspector of Hospitals, Bombay—'Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering and when all other remedies had failed.'

Dr. J. Collis Browne's Chlorodyne.—CAUTION.—None genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government Stamp. Overwhelming medical testimony accompanies each bottle. Sole Manufacturer J. T. Davenport, 33 Great Russell Street, Bloomsbury, London. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, 1s 1½; 2s 9d; 4s 6d and 11s.

Dr J. Collis Browne's Chlorodyne—Vice-Chancellor Sir W Page Wood stated publicly in court that Dr J Collis Browne was undoubtedly the inventor of Chlorodyne; that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to. See the TIMES, July 30th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. See LANCET, Dec. 31, 1863.

Dr J Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866—Is prescribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.

Dr J Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

FRENCH MEDICINES IN VOGUE.

BY GRIMAULT & CO.,

Chemist to H. I. H. Prince Napoleon,

49 RUE RICHELIEU, PARIS.

NO MORE COD LIVER O

GRIMAULT'S SYRUP OF IODIZED HORSERADISH

This syrup is employed with the greatest success, in place of Cod Liver Oil, to which it is infinitely superior. It cures diseases of the chest, scrofula, lymphatic disorders, green sickness, muscular atony and loss of appetite. It regenerates the constitution by purifying the blood, and is, in a word, the most powerful depurative known. It never fatigues the stomach and bowls, and is administered with the greatest efficacy to young children subject to humors or obstruction of the gland. At last, it is very efficacious in the diseases of the skin.

No More Consumption.

GRIMAULT'S SYRUP OF HYPHOSPHATE OF LIME.

This new medicine is a sovereign remedy in phthisis and other diseases of the lungs, promptly removes all the most serious symptoms. The cough is relieved; the night sweats cease, and the patient rapidly recovers health.

No More Poverty of the Blood and Pale Complexion,

DRS LERA'S PHOSPHATE OF IRON.

This new ferruginous medicine contains the elements of the blood and bones, and iron in a liquid state. It is different from all hitherto offered to the public, is liquid, colorless and tasteless. It speedily cures chlorosis, pains in the stomach, difficult digestion, dysmenorrhœa and anemia.

The majority of the Academies of Medicine of Paris recommend the Phosphate of Iron to ladies of delicate constitution suffering from anemia, and other persons fatigued from over anxiety, nervous emotions, over work, general debility and poorness of blood.

It is the only preparation which never causes constipation and can be borne by the most delicate stomachs.

Nervous Headaches and Neuralgias.

Instantaneously cured by
GRIMAULT'S BRAZILIAN GUERANA.

A vegetable substance, used from time immemorial in Brazil, and entirely inoffensive.

Better than Copabia

GRIMAULT'S CAPSULES AND LIQUID EXTRACT OF MATICO VEGETALIS

Where all other preparations have failed, these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and copaiba and cubebs. The injection is used in recent and capsules in more chronic cases.

DIGESTIVE LOZENGES AND POWERS OF ALKALINE LACTATES

BY BURINDU BUISSON,

LAUREATE OF THE PARIS IMPERIAL ACADEMY OF MEDICINE

This delicious preparation is prescribed by the most reputed doctors in France, against all derangements of the digestive functions, such as gastritis, gastralgia, long and painful digestions, wind in the stomach and bowels, emaciation, jaundice, and complaints of the liver and loins.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lesson inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	ings,	Ulcers,
Chilblains,	Lumbago,	Wounds,
Chapped Hands,	Piles,	Yaws.

Blackwood's Edinburgh Magazine, Tory

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the times in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

BLACKWOOD is unusually attractive at this time, to Americans not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief-of-staff to Gen. J. E. B. Stuart, of the Confederate army.
